At the conclusion of the 2006 ozone season, all monitors in Southeast Michigan measured air quality that meets the NAAQS for ozone. The DEQ plans to submit the redesignation petition and maintenance plan for Lenawee, Livingston, Macomb, Monroe, Oakland, St. Clair, Washtenaw, and Wayne counties to the U. S. Environmental Protection Agency to formally request that Southeast Michigan be redesignated to attainment and classified as "maintenance" under the 8-hour NAAQS for ozone. LEGACY LAND DEVELOPMENT INC. (LEGACY) IS THE HOLDER OF INTEREST OF A COMMONS AREA AND CERTAIN LOTS THAT ARE PART OF AN 18.35 ACRE DEQ CONSERVATION EASEMENT (EASEMENT) LOCATED IN THE MAPLE CREEK ESTATES SUBDIVISION #2, CITY OF NEW BALTIMORE, MACOMB COUNTY. The easement was originally required as part of a (April 2001) DEQ Consent Agreement in order to resolve a wetland violation. A revised Consent Agreement (December 2006) requires an amendment of the easement and includes the creation of 5.85 acres of new wetland within the easement and preservation of 11.8 acres of remaining wetland. Legacy requests the modification to meet the city of New Baltimore's requirements, which require sidewalks within the road right-of-way. Legacy proposes to remove the area of right-of-way from the easement and seeks to consolidate the easement by removing wetland areas contained within individual lots from the easement in exchange for additional wetland that will be included as part of the commons area contained within the easement. Amending the 18.35 acre easement will reduce the easement to a new total of 17.65 acres. To offset wetland impacts within the right-of-way, Legacy proposes 2.16 acres of off-site wetland creation in Macomb Township that will also be placed under easement. Submit written comments to Colleen O'Keefe, Michigan Department of Environmental Quality, Land and Water Management Division, P.O. Box 30458, Lansing, Michigan 48909-7958 by July 16, 2007. Information Contact: **Colleen O'Keefe**, Land and Water Management Division, 517-373-8813. Decision-maker: **DEQ Director**.

REMEDATION AND REDEVELOPMENT DIVISION

SECOND ROUND OF APPLICATIONS – TEMPORARY REIMBURSEMENT PROGRAM FOR LEAKING UNDERGROUND STORAGE TANK SITES. The Michigan Department of Environmental Quality (DEQ) Remediation and Redevelopment Division (RRD) will administer the second round of the Temporary Reimbursement Program (TRP) created by the July 20, 2006, amendments to Part 215, Refined Petroleum Fund (RPF), of the Natural Resources and Environmental Protection Act, 1994 PA 451.

Overview: The first round of the TRP allocated approximately \$26 million for owners and operators who had approved claims under the former Michigan Underground Storage Tank Financial Assurance (MUSTFA)¹ Program or persons with a valid assignment of an approved MUSTFA claim for high risk sites, provided certain other eligibility criteria were met. The TRP assists owners and operators in paying for newly incurred cleanup costs associated with releases from their petroleum underground storage tank systems. Note that the program is only for new costs incurred after approval of the pre-certification application. Funds remain for a second round of applications that will be accepted on a first-come, first-served basis. Applicants who were approved in the first round for a given site cannot reapply for the same site. Applicants denied in the first round due to the site risk not being a class 1 or class 2 before May 9, 2005, may reapply if the latest information shows that the site is a class 1 or a class 2. The eligibility criteria for the second round are the same as those for the first round except that the site risk of class 1 or class 2 must be based on the most recent data.

Eligible persons shall receive reimbursement of 80 percent of each approved work invoice, up to a maximum total reimbursement amount of \$50,000.00 per approved site. The remaining 20 percent, up to a maximum of \$12,500, is considered a co-pay amount to be paid by the applicant. If funds still remain after all allocations, the remaining money will be allocated on a prorated basis among the approved first and second round applicants. To receive funding, the applicant must retain a Qualified Underground Storage Tank Consultant (QC) to perform the corrective actions in accordance with Part 213.²

Application Timeframe: The application form for the second round will be available on the Web at 8:00 a.m. July 30, 2007, and will be accepted from July 30, 2007, through 5:00 p.m. August 29, 2007. Applications submitted outside this window will not be considered. Subscribers to the DEQ-RRD electronic mailing list (listserv) will also receive the application form when it is released.

For more information: Details on the program and the enabling legislation are available from the RPF – Temporary Reimbursement Program link on the RRD homepage at www.michigan.gov/degrd. You can also navigate to this page from the DEQ's homepage at www.michigan.gov/deg; from the left navigation menu select "Refined Petroleum Fund," then click on the link "RPF -Temporary Reimbursement Program."

In order to receive further updates on the TRP, the DEQ recommends that you subscribe to the Remediation and Redevelopment Division's electronic mailing list (listserver) by sending an Email message to rpf@michigan.gov.
